Journal of Genetic Psychology, 150(4), 467–470

Index to Volume 150

This annual index is organized by first author and by title. Page numbers refer to the following issues:

Number 1 (March): Pages 1 through 120
Number 2 (June): Pages 121 through 232
Number 3 (September): Pages 233 through 336
Number 4 (December): Pages 337 through 472

AUTHOR INDEX

Anderson, M., & Hughes, H.M. *Parenting attitudes and the self-esteem of young children.* 463–465.

Barnett, M.A., & McCoy, S.J. *The relation of distressful childhood experiences and empathy in college undergraduates.* 417–426.

Baumeister, R.F., & Senders, P.S. *Identity development and the role structure of children's games.* 19–37.

Bernt, F.M. *Children's use of schematic concepts in free classification tasks: A closer look.* 187–195.

Blades, M., & Spencer, C. *Young children's ability to use coordinate references.* 5–18.

Bradley, B.S., & Gobbart, S.K. *Determinants of gender-typed play in toddlers.* 453–455.

Creasey, G.L., & Jarvis, P.A. *The child's perceptions of familial relationships: Convergence between two assessment techniques.* 59–64.

Crombie, G., & Gold, D. *Compliance and problem-solving competence in girls and boys.* 281–291.

Davidson, P.M., White, P.N., Smith, D.J., & Poppen, W.A. *Content and intensity of fears in middle childhood among rural and urban boys and girls.* 51–58.

Dilon, K.M., & Totten, M.C. *Psychological factors, immunocompetence, and health of breast-feeding mothers and their infants.* 155–162.

Fallon, M.A., & Harris, M.B. *Factors influencing the selection of toys for handicapped and normally developing preschool children.* 125–134.

Finegan, J., Bartleman, B., & Wong, P.Y. *A window for the study of sex hormone influences on postnatal development.* 101–112.

Finley, G.E., & Delgado-Hachey, M. *Category breadth and memory in younger and older adults.* 119–120.

Foulkes, D., Sullivan, B., Hollifield, M., & Bradley, L. *Mental rotation, age, and conservation.* 449–451.

Furnham, A., & Kramers, M. *Eating-problem patients' conceptions of normality.* 147–153.

Heilbrun, A.B., Jr., Wydra, D., & Friedberg, L. *Parent identification and gender schema development.* 293–299.

Hoots, M.A., McAndrew, F.T., & Francois, G.R. *Decoding of gestures by kindergarten, first-, and third-grade children.* 117–118.

Kalichman, S.C. *Sex roles and sex differences in adult spatial performance.* 93–100.

Lindberg, M.A. *The development of at-*

tribute dominance in the knowledge base. 269–280.
Markoulis, D. *Postformal and postconventional reasoning in educationally advanced adults.* 427–439.
McAuley, E., Duncan, T.E., & McElroy, M. *Self-efficacy cognitions and causal attributions for children's motor performance: An exploratory investigation.* 65–73.
McDonald, S.M. *Sex bias in the representation of male and female characters in children's picture books.* 389–401.
McGraw, K.O., Durm, M.W., & Durnam, M.R. *The relative salience of sex, race, age, and glasses in children's social perception.* 251–267.
Messer, S.C., Wuensch, K.L., & Diamond, J.M. *Former latchkey children: Personality and academic correlates.* 301–309.
Mullet, E., Lautrey, J., & Glaser, P.-L. *Information integration in an area judgment task: Effect of aids on children's perceptual judgments.* 375–387.
Nelson-Le Gall, S., DeCooke, P., & Jones, E. *Children's self-perceptions of competence and help seeking.* 457–459.
Nevius, J. *Relations between young Mexican-American children and play paradigms.* 441–443.
Normandeau, S., Larivée, S., Roulin, J.-L., & Longeot, F. *The balance-scale dilemma: Either the subject or the experimenter muddles through.* 237–249.
Nowicki, S., Jr., & Oxenford, C. *The relation of hostile nonverbal communication styles to popularity in preadolescent children.* 39–44.
Olver, R.R., Aries, E., & Batgos, J. *Self–other differentiation and the mother–child relationship: The effects of sex and birth order.* 311–321.
O'Mahony, J.F. *Development of thinking about things and people: Social and nonsocial cognition during adolescence.* 217–224.
Parish, T.S. *Evaluations of parents: Do they vary as a function of loss, age at loss, or gender of the respondent?* 461–462.
Prawat, R.S., Anderson, A.L.H., & Hapkeiwicz, W. *Are dolls real? Developmental changes in the child's definition of reality.* 359–374.
Pomerleau, A., Maître, G., & Malcuit, G. *Stability of habituation responses across multiple sessions in 4-month-old infants.* 445–448.
Rekers, G.A., Sanders, J.A., Rasbury, W.C., Strauss, C.C., & Morey, S.M. *Differentiation of adolescent activity participation.* 323–335.
Rust, J., Golombok, S., & Abram, M. *Creativity and schizotypal thinking.* 225–227.
Shek, D.T.L. *Perceptions of parental treatment styles and psychological well-being in Chinese adolescents.* 403–415.
Siltanen, S.A. *Effects of three levels of context on children's metaphor comprehension.* 197–215.
ter Laak, J.J. *Differences in the behavior and development of profoundly and severely retarded adults.* 85–92.
Wedemeyer, N.V., Bickhard, M.H., & Cooper, R.G., Jr. *The development of structural complexity in the child's concept of family: The effect of cognitive stage, sex, and intactness of family.* 341–357.
Wierzbicki, M. *Twins' responses to pleasant, unpleasant, and life events.* 135–145.
Wierzbicki, M., & Carver, D. *Children's engagement in antidepressive activities.* 163–174.
Wilson, C.C., Lazarre, J.A., & Tingstrom, D.H. *Children's resistance to deviation: Multiple behavorial models.* 75–83.
Witryol, S.L., & Werner, A.B. *Are boys more variable than girls? A call for published and unpublished experiments in sex differences.* 113–115.
Zeidner, M., & Safir, M.P. *Sex, ethnic,*

and social differences in test anxiety among Israeli adolescents. 175–185.
Zheng, S.-Y., & Colombo, J. *Sibling configuration and gender differences in preschool social participation.* 45–50.

TITLE INDEX

Are boys more variable than girls? A call for published and unpublished experiments in sex differences. *Sam L. Witryol and Arlene B. Werner.* 113–115.
Are dolls real? Developmental changes in the child's definition of reality. *Richard S. Prawat, Ariel L.H. Anderson, and Walter Hapkeiwicz.* 359–374.
The balance-scale dilemma: Either the subject or the experimenter muddles through. *Sylvie Normandeau, Serge Larivée, Jean-Luc Roulin, and François Longeot.* 237–249.
Category breadth and memory in younger and older adults. *Gordon E. Finley and Maria Delgado-Hachey.* 119–120.
Children's engagement in antidepressive activities. *Michael Wierzbicki and Diana Carver.* 163–174
Children's resistance to deviation: Multiple behavioral models. *C. Chrisman Wilson, Jeanne A. Lazarre, and Daniel H. Tingstrom.* 75–83.
Children's self-perceptions of competence and help seeking. *Sharon Nelson-Le Gall, Peggy DeCooke, and Elaine Jones.* 457–459.
Children's use of schematic concepts in free classification tasks: A closer look. *Frank M. Bernt.* 187–195.
The child's perceptions of familial relationships: Convergence between two assessment techniques. *Gary L. Creasey and Patricia A. Jarvis.* 59–64.
Compliance and problem-solving competence in girls and boys. *Gail Crombie and Dolores Gold.* 281–291.
Content and intensity of fears in middle childhood among rural and urban boys and girls. *Phyllis M. Davidson, Priscilla N. White, Debbie J. Smith, and William A. Poppen.* 51–58.
Creativity and schizotypal thinking. *John Rust, Susan Golombok, and Mark Abram.* 225–227.
Decoding of gestures by kindergarten, first-, and third-grade children. *Margaret A. Hoots, Francis T. McAndrew, and Gary R. Francois.* 117–118.
Determinants of gender-typed play in toddlers. *Ben S. Bradley and Susan K. Gobbart.* 453–455.
The development of attribute dominance in the knowledge base. *Marc A. Lindberg.* 269–280.
The development of structural complexity in the child's concept of family: The effect of cognitive stage, sex, and intactness of family. *Nancy V. Wedemeyer, Mark H. Bickhard, and Robert G. Cooper, Jr.* 341–357.
Development of thinking about things and people: Social and nonsocial cognition during adolescence. *John F. O'Mahony.* 217–224.
Differences in the behavior and development of profoundly and severely retarded adults. *Jan J. ter Laak.* 85–92.
Differentiation of adolescent activity participation. *George A. Rekers, Judith A. Sanders, Wiley C. Rasbury, Cyd C. Strauss, and Shasta Mead Morey.* 323–335.
Eating-problem patients' conceptions of normality. *Adrian Furnham and Madelon Kramers.* 147–153.
Effects of three levels of context on children's metaphor comprehension. *Susan A. Siltanen.* 197–215.
Evaluations of parents: Do they vary as a function of parent loss, age at loss,

or gender of the respondent? *Thomas S. Parish.* 461–462.

Factors influencing the selection of toys for handicapped and normally developing preschool children. *Moira A. Fallon and Mary B. Harris.* 125–134.

Former latchkey children: Personality and academic correlates. *Stephen C. Messer, Karl L. Wuensch, and John M. Diamond.* 301–309.

Identity development and the role structure of children's games. *Roy F. Baumeister and Pamela S. Senders.* 19–37.

Information integration in an area judgment task: Effect of aids on children's perceptual judgments. *Etienne Mullet, Jacques Lautrey, and Pierre-Louis Glaser.* 375–387.

Mental rotation, age, and conservation. *David Foulkes, Brenda Sullivan, Michael Hollifield, and Laura Bradley.* 449–451.

Parent identification and gender schema development. *Alfred B. Heilbrun, Jr., Dawna Wydra, and Lisa Friedberg.* 293–299.

Parenting attitudes and the self-esteem of young children. *Merrilee Anderson and Honore M. Hughes.* 463–465.

Perceptions of parental treatment styles and psychological well-being in Chinese adolescents. *Daniel T.L. Shek.* 403–415.

Postformal and postconventional reasoning in educationally advanced adults. *Diomedes Markoulis.* 427–439.

Psychological factors, immunocompetence, and health of breast-feeding mothers and their infants. *Kathleen M. Dillon and Mary C. Totten.* 155–162.

The relation of distressful childhood experiences and empathy in college undergraduates. *Mark A. Barnett and Sandra J. McCoy.* 417–426.

The relation of hostile nonverbal communication styles to popularity in preadolescent children. *Stephen Nowicki, Jr., and Carolyn Oxenford.* 39–44.

Relations between young Mexican-American children and play paradigms. *John Nevius.* 441–443.

The relative salience of sex, race, age, and glasses in children's social perception. *Kenneth O. McGraw, Mark W. Durm, and Michael R. Durnam.* 251–267.

Self-efficacy cognitions and causal attributions for children's motor performance: An exploratory investigation. *Edward McAuley, Terry E. Duncan, and Mary McElroy.* 65–73.

Self-other differentiation and the mother-child relationship: The effects of sex and birth order. *Rose R. Olver, Elizabeth Aries, and Joanna Batgos.* 311–321.

Sex bias in the representation of male and female characters in children's picture books. *Scott M. McDonald.* 389–401.

Sex, ethnic, and social differences in test anxiety among Israeli adolescents. *Moshe Zeidner and Marilyn P. Safir.* 175–185.

Sex roles and sex differences in adult spatial performance. *Seth C. Kalichman.* 93–100.

Sibling configuration and gender differences in preschool social participation. *Shu-Yuan Zheng and John Colombo.* 45–50.

Stability of habituation responses across multiple sessions in 4-month-old infants. *André Pomerleau, Geneviève Maître, and Gérard Malcuit.* 445–448.

Twins' responses to pleasant, unpleasant, and life events. *Michael Wierzbicki.* 135–145.

A window for the study of prenatal sex hormone influences on postnatal development. *Jo-Anne Finegan, Betty Bartleman, and P.Y. Wong.* 101–112.

Young children's ability to use coordinate references. *Mark Blades and Christopher Spencer.* 5–18.
